SmartAddresser USA

Order Number: [SMAUSA] Retail Price: \$2295; \$3445 CN

Includes one year of toll-free technical support and bi-monthly CASS, PAVE and Program updates.

Database Marketing & Mailing Software for Windows Featuring *AccuMail*

- PAVE certified. Presorts all classes of mail (First Class, Periodical and Standard Mail [A]); letters, flats and cards. Automatically determines the lowest possible mailing costs. Presorts are saved for future use
- CASS Certified (*featuring AccuMail*). Quickly and easily corrects, parses and standardizes every codeable address in your database and adds Carrier Routes, ZIP+4, Line of Travel (LOT) and Delivery Point Barcode (DPB) information
- Complete Foxpro[®] database management. Imports/exports to and from 13 common data formats at rates exceeding 6 million records/hour. View records one by one or as a spreadsheet
- Prints all required Mailing Statements and USPS Qualification Reports, as well as, tray tags/sack labels directly to your printer
- Powerful report and label generator (including over 100 pre-formatted label templates) allow full use of multiple fonts, styles, sizes and graphics
- Powerful duplicate detection and merge/purge features SmartSteps feature allows for unattended processing of multiple lists
- Powerful search engine locates records on any field or combination of fields
- Automatic formatting of data (Proper Caps, Full Caps, Perfect Caps) Supports all Windows print drivers; drivers are included for all Datatech Bryce Direct Impression Printers
